EXPERIENCE

UX/UI Designer

March, 2021 - October, 2021

Reskill Americans Bootcamp

- Conceptualized and designed a charity app for clothes donations. I was the sole UX/UI Designer and was involved in the end-to-end process which included user research, wireframing, sketching, prototyping, creating user flows, and usability testing.
- Crafted responsive user experiences and interfaces using Figma with a mobile-first mentality while still establishing consistent web/desktop interaction patterns.
- Worked in tandem with project managers, developers, and the overall UX team to build creative and technically feasible design solutions within the given project timeline.
- Contributed to the creation, organization, and distribution of project style guides and pattern libraries.
- Developed wireframes and prototypes that illustrate how a product functions, looks, and flows.

Teacher

September, 2006 - Present

Sayreville Board of Education, Sayreville NJ

- Provide informative presentations to students regarding different areas of studies and ensure all students fully comprehend all aspects.
 - Assess and look after 150+ students' progress throughout the year and work closely with other staff to efficiently plan and coordinate work.
 - Create and manage systems for tracking large amounts of data.
-

TOOLS

Figma - This is my primary design tool. I iterate and maintain designs via clickable prototypes.

Adobe Illustrator - I use illustrator to create vector images used in designs, logos, and vector art.

Adobe Photoshop - I edit/manipulate images as well as create font designs for clients.

Miro - Used primarily to create user journey maps and flows, demonstrate user pain points, empathy maps, and notes to centralize communication with team members.

Asana - Used to communicate with team members, remain organized, and keep track of work progress.
